

Qingdao No. 1 International School of Shandong Province

February 25, 2011

Dear Parents of QISS Students,

On Wednesday, we found a student with head lice in the pre-K classroom. The parents were called and the student went home. We asked the school nurse to check all elementary students for lice. The bedding was sanitized and it is sanitized each day. New pillows were purchased and a letter went home with all lower school students. Lice are very contagious but not a serious problem. It is asked that you check your child's hair for signs of lice and treat the lice before sending your child to school. Thank you for your cooperation and understanding.

The second session of after school activities end on Friday, March 4.

Correction; The third session of after school activities will begin on Thursday, March 10. Please see our web page for the after school offerings. Click on the tab called School Life. Then click on Extra Curricular Activities. Students may still sign up for after school activities. It is expected that students attend all sessions of their after school activities.

Swimming has been moved to Mondays.

We want to welcome the following new students to the elementary school at QISS:
