

Qingdao No. 1 International School of Shandong Province

September 3, 2010

Dear Parents,

Our QISS International Day/Open House has been rescheduled for Saturday, September 18. We were following the weather reports on the typhoon moving through this area and decided that it would be safer to postpone this event. It will also provide us more time to organize a better event.

Grade 4 went on a fieldtrip to enhance their current unit and delve a deep study and investigation for a “healthy life-style” on Wednesday. As you can see from the photos above, students were hiking, eating a sensible lunch and resting during their exploration outside the classroom.

All students are truly enjoying our new campus. There is so much space to run and play with classmates. The classrooms are bright and full of student discussions. Please ask your child about his or her learning.

Sincerely,
Mr. Alberto Gutierrez
Lower School Principal
